

## ABOUT WOMEN'S PROPERTY INITIATIVES

Women's Property Initiatives creates new beginnings for women and children at risk of homelessness by providing permanent and affordable homes, access to support networks and ongoing advocacy.

By providing long term housing solutions, WPI can change a women's future for the better, helping to break the intergenerational cycle of poverty. Giving women the opportunity to live with dignity and become involved in their communities.

## FUTURESTEPS PROJECTS

FutureSteps has supported:

Roxburgh Park Project \$65,000 contribution to demolish an aged existing property and rebuild one two bedroom house and one three bedroom house on an underutilised site. These homes will be for single mothers.

"Taken from our social return on investment report, we know that women have experienced improved mental and physical health, increased employment, improved personal safety and their children were found to be doing better at school as a result of moving into their WPI home." WPI Application

## IN KIND SUPPORT

Lendlease volunteers took part in the annual Lendlease Community Day at a WPI Property to give the garden a much needed make over.
